IG Proposal approved by FMG	*	yes
Link to IG Proposal Approval from FMG	*	N/A
NIB Submitted	*	Yes
Link to Submitted NIB	*	<a href="http://www.hl7.org/special/committees/tsc/ballotmanagement/DisplayNIB.cfm?ballot_document_sdo_id=943">http://www.hl7.org/special/committees/tsc/ballotmanagement/DisplayNIB.cfm?ballot_document_sdo_id=943</a>
TSC has approved the NIB for ballot or publication request		Yes
Link to TSC approval for NIB		<a href="http://www.hl7.org/special/committees/tsc/ballotmanagement/index.cfm?wg_id=33">http://www.hl7.org/special/committees/tsc/ballotmanagement/index.cfm?wg_id=33</a>
What type of publication is requested?	*	Ballot Publication
Ballot Cycle (if applicable):		January 2021
Please specify ballot cycle if not in dropdown		
Requested Publication Date (if applicable):		
Name of IG Contact Person:	*	Eric Haas
Email of IG Contact Person	*	ehaas@healthdatainc.com
URL of CI Build for IG:	*	<a href="http://build.fhir.org/ig/HL7/US-Core/">http://build.fhir.org/ig/HL7/US-Core/</a>
Is this the first time this IG has been published?	*	No
Realm matches the realm code identified in IG Proposal approval	*	Yes
Please provide realm as approved in IG Proposal	*	US
Code matches code identified in IG Proposal approval	*	Yes
Provide code as approved in IG proposal	*	hl7.fhir.us.core

What is the requested version of this IG publication? *	3.2.0
Code and realm in NPM Package name, canonical URL and IG URL match those in approved IG Proposal *	Yes
Version has been approved by Product Director and is specified in fixed-business-version *	Yes
Package-list.json exists and has a correctly populated entry (except for date) *	Yes
Header conforms to FHIR IG Publishing Requirements *	<div>Correct HL7 logo is displayed /</div> <div>Shows name of IG and ballot status correctly /</div> <div>Yellow publish box displays correctly</div>
Footer conforms to FHIR IG Publishing Requirements *	<div>Publishing WG is displayed / Propose Changes Link is displayed /</div> <div>packageID is displayed / History Link is displayed /</div> <div>FHIR version is displayed / FHIR IG Version is displayed /</div> <div>Copyright (© 20YY+) is displayed</div>
Commit is done to publish IG to the CI Build Site *	Yes
The QA.html is clean with no errors or warnings *	Yes
Please explain all errors and warnings in QA.html if not clean	<p>Dec 10, 2020 02:00</p> <p> Eric Haas errors and warnings</p> <p>VSAC link errors</p> <ol style="list-style-type: none"> <li>1. Immunization Example: imm-1.json NDC/CVX codes Zulip WIP per GG should be fixed.</li> <li>2. Patient Examples: patient-child-example.json, patient-infant-example.json, patient-example.json and ValueSet-omb-race-category.json CDCREC codes and code system value (OID vs ? defined in package or by VSAC ????) Zulip per 12/2 FMG won't be able to fix this by ballot. Made Note to balloters that CDCREC code system using VSAC is an open issue</li> <li>3. Pulse Ox Example: observation-satO2-fiO2 Zulip per 12/2 FMG won't be able to sort out by ballot. Made an STU note that is technically not conformant with the base FHIR vital profile.</li> <li>4. Procedure Example: rehab.json. Zulip per GG will get fixed.</li> <li>5. valueset-simple-language.xml "Error from server: Language valuesets cannot be expanded as they are based on a grammar" this error is still extant from prior version of US Core and has yet to be resolved. per 12/2 FMG per GG won't be fixed, ok to get variance on this one.</li> </ol>
The IG content is at FMM level 2 for STU or 5 for Normative (or exception has been received from FMG) *	Yes
If applicable, Ballot reconciliation is complete for previous ballot and	Yes

package is posted to the Ballot  
Desktop
